Attorneys for Defendant/Counter-Claimant  
 CoreCivic, Inc.

**UNITED STATES DISTRICT COURT  
 SOUTHERN DISTRICT OF CALIFORNIA**

Sylvester Owino and Jonathan Gomez,  
 on behalf of themselves, and all others  
 similarly situated,

Plaintiffs,

v.

CoreCivic, Inc., a Maryland  
 corporation,

Defendant.

NO. 3:17-cv-01112-JLS-NLS

**DECLARATION OF L.  
 MALLAMAS IN SUPPORT OF  
 DEFENDANT'S MEMORANDUM  
 IN OPPOSITION TO PLAINTIFFS'  
 MOTION FOR CLASS  
 CERTIFICATION**

Declaration of L. Mallamas

17cv01112-JLS-NLS

CoreCivic, Inc., a Maryland  
corporation,  
  
Counter-Claimant,  
  
v.  
  
Sylvester Owino and Jonathan Gomez,  
on behalf of themselves, and all others  
similarly situated,  
  
Counter-Defendants.

I, L. Mallamas, make the following Declaration:

1. I am over the age of 18 years and competent to testify to the matters set forth in this Declaration. I make this Declaration in support of CoreCivic's Memorandum in Opposition to Plaintiffs' Motion for Class Certification based on my own personal knowledge and my review of the relevant documents as maintained by CoreCivic in the usual course of business.

2. I have been in corrections for over 19 years. I have been employed by CoreCivic since 2000, when I started as a Correctional Officer at CoreCivic's California City Correctional Center, located in California City, California.

3. I am currently the Director of Commissary for CoreCivic, a position I have held since 2015. As the Director of Commissary, I oversee commissary operations for all of CoreCivic's facilities nationwide in which CoreCivic manages the facility commissary. Specifically, I ensure that the commissaries offer inmates and detainees an appropriate, comprehensive lineup of goods at fair prices. I also work closely with, and provide training to, the facilities to ensure that their commissary operations are managed appropriately, treating their inmate and detainee populations with respect, and that they are fiscally sound.

4. Commissaries at all CoreCivic facilities, including facilities housing ICE detainees, are operated solely for the benefit of the inmate and detainee population. Indeed, CoreCivic Policy 2-4, Facility Commissary Checking Account, provides that "[e]ach facility will . . . maintain commissary profits which are

1 generally used to pay for inmate/resident welfare expenses or as otherwise dictated  
2 by the terms of the appropriate management contract.” CoreCivic makes no money  
3 from commissary sales.

4 5. CoreCivic’s contracts with ICE generally allow CoreCivic to operate  
5 its commissaries on a profit margin in order to accomplish this mission, but does  
6 not specify the margin to be used. Unless otherwise specified in a particular  
7 contract, CoreCivic generally uses a 30% margin to determine the prices of the  
8 items it sells in the commissary.

9 6. To ensure that items offered in the facility commissary are priced  
10 appropriately and fairly, CoreCivic conducts a market-based pricing survey every  
11 two years, comparing the prices of items offered in the commissary to the prices of  
12 identical (or at least similar) items at local convenience stores. CoreCivic conducted  
13 a market-based pricing survey in 2018, and will conduct the next one in 2020.

14 7. CoreCivic starts by gathering sales data for the most recent three to six  
15 month period from all facilities at which it operates the commissary to identify the  
16 25 top-selling items at each facility. If several items on the resulting list are of the  
17 same type—for example, four flavors of ramen noodle soup, or three types of  
18 soda—they will be consolidated into one item, such as “ramen noodle soup” or  
19 “soda,” and the next items on the list will be moved up to create the list of the 25  
20 top-selling items at each facility.

21 8. Commissary staff then go to local convenience stores to locate  
22 identical items (or substantially similar items if identical items cannot be located)  
23 and note the size and price of each item. If staff cannot locate an identical or  
24 substantially similar item, they will try another local convenience store. If they still  
25 cannot locate an appropriate comparison item, they will move to the next item on  
26 the list of top sellers so that 25 items are being compared for each facility.

27 9. CoreCivic compares its prices to convenience stores because the  
28 commissaries fulfill the same purpose as convenience stores—a place to purchase

1 items as a supplement to the food, clothing, and hygiene items (at facilities housing  
2 ICE detainees) provided to all detainees free of charge. CoreCivic does not compare  
3 prices at general stores such as Walmart or Dollar Tree, which have a much larger  
4 purchasing power and thus are able to offer lower prices than CoreCivic.

5 10. CoreCivic then calculates the cost per ounce of each item and  
6 compares that to the cost per ounce of the items sold through the commissary.  
7 Generally speaking, CoreCivic's prices are comparable to, and often better than,  
8 90% of the items sold in convenience stores. When CoreCivic's price on an item is  
9 not better (or at least comparable), CoreCivic contacts its vendor, Keefe Supply  
10 Company, to negotiate a lower price for the item. If a lower price for that particular  
11 item is not possible, CoreCivic will ensure it has similar items at other price points  
12 to give detainees options.

13 11. CoreCivic's Facility Support Center ("FSC") (headquarters) approves  
14 each facility's commissary inventory. FSC maintains a master inventory list of over  
15 2,400 items that have been approved for sale in secure correctional and detention  
16 facilities. CoreCivic tracks the sales performance of each item and pricing  
17 variations to ensure that the commissaries are offering items that detainees want to  
18 purchase at fair prices, and will add new items from time to time. CoreCivic's goal  
19 is to offer items that are meaningful to the detainees.

20 12. Each facility can choose what items to offer from the master list based  
21 on factors such as sales history at their facility and other facilities,  
22 recommendations from Keefe, and the amount of product the facility can store on-  
23 site. The facilities then submit the inventories to FSC for approval. True and correct  
24 copies of representative facility commissary inventory lists, as maintained by  
25 CoreCivic in the usual course of business, are attached as follows: **Attachment A**,  
26 Otay Mesa Detention Center, dated September 14, 2018; **Attachment B**, San Diego  
27 Correctional Facility, dated May 30, 2014; **Attachment C**, Houston Processing  
28 Center, dated May 17, 2019; **Attachment D**, Stewart Detention Center, dated May

1 17, 2019; **Attachment E**, Central Arizona Florence Correctional Complex, dated  
2 May 17, 2019; **Attachment F**, Laredo Processing Center, dated May 17, 2019;  
3 **Attachment G**, Eloy Detention Center, dated May 17, 2019.

4 13. The use of revenue from commissary sales is strictly controlled, which  
5 is why Policy 2-4 requires the facility commissary checking account to be separate  
6 from all other accounts and to use checks of a different color than other facility  
7 checks, and limits the personnel who are authorized to sign checks from the  
8 account.

9 14. Funds from the facility commissary checking account are used to  
10 replenish the commissary inventory and to pay for operating expenses of the  
11 commissary as outlined in the applicable management contract. Such expenses may  
12 include the salaries of certain staff members specifically identified in the facility  
13 staffing pattern (as defined in the applicable contract) as responsible for the  
14 commissary. Commissary funds are never used to pay for detention officer  
15 salaries—including detention officers who are or may be stationed in commissary  
16 to supervise detainee workers participating in the Voluntary Work Program—or  
17 other facility operating expenses.

18 15. Any profits remaining after payment of these expenses are placed in  
19 the Inmate Welfare Fund (“IWF”). Any expenditures from the IWF must benefit all  
20 detainees in the facility, and cannot be used for any other purpose.

21 16. Such expenditures may include things like recreational materials, such  
22 as televisions, exercise equipment, sports equipment, board games, and video  
23 games; books; movies; hobby/craft materials; or Christmas packages, to name a  
24 few.

25 17. Depending on the contract, approval of the contracting agency may be  
26 required before funds may be spent out of the IWF. For example, some of  
27 CoreCivic’s contracts with ICE require approval of the ICE Contracting Officer’s  
28 Representative before funds may be spent out of the IWF.

1 I declare under penalty of perjury that the foregoing is true and correct to the  
2 best of my knowledge.

3 EXECUTED this \_\_\_\_\_ day of July, 2019 at Nashville, Tennessee

A handwritten signature in black ink, appearing to be 'L. Mallamas', is written over a horizontal line. The signature is enclosed within a large, hand-drawn oval.
